

## SCHOOLS A+ ENERGY EFFICIENCY PROGRAM

Together We Can Make the Grade  
Co-ops and Schools Improving Energy Performance

*Schools spend over  
\$6 billion a year on  
energy and 25% of  
that is wasted!*

**Save the date!**

**October 19**

Williamson County  
Pavilion, Marion

**October 20**

World Shooting Complex,  
Sparta

Your schools do not have to be  
served by an electric cooperative  
to attend

The Touchstone Energy Electric Cooperatives of southern Illinois are bringing a nationally recognized energy trainer to the region to assist our schools in reducing energy and maintenance costs.

- Energy costs are a major budget component
- Energy costs are manageable, not fixed
- All schools can benefit from low-cost/no-cost measures
- Improving the school environment improves student performance, attendance, morale and community spirit
- Your key personnel will improve their knowledge of school design, HVAC, lighting, plug loads and more

Superintendents  
and a key  
facilities/  
maintenance  
person are urged  
to attend
